# MORE THAN 120 YEARS OF ABT

OEM-LIKE TUNING – WE ARE PREMIUM ALL OVER

At the beginning of 2015 the road in front of the ABT HQ in Kempten was named after the late tuning pioneer Johann Abt (1935-2003). The father of today's CEO Hans-Jürgen Abt had founded ABT Tuning in 1967 and thereby launched what is now the globally largest tuner of cars produced by the Volkswagen Group, which includes the brands Audi and VW. But the Abt family has been dealing with cars, motorsports and technology much longer. Again it was a Johann Abt who laid the foundation stone. 120 years ago he founded a very innovative forge, which became associated with the four brands now symbolised by the four rings of the Audi logo shortly after WWI. And with Volkswagen ABT has had many decades of experience too. No wonder, then, that today almost all the group's models are covered. Put more generally, the Bavarian company always provides innovative solutions for quite a number of cars produced by the Volkswagen Group. All the cars and components are always state-of-the-art and embody a successful family-owned company's traditional values.

Extensive tests, its own dynamometer, comprehensive warranties and supreme QA processes make for a relationship with customers based on trust. And, of course, five decades of motorsport experience are also part of the development process. After all, over the past decade, ABT has won five DTM championships, participates as the only German team in the full-electric racing series Formula E or handles three Bentley Continental GT3's in GT Masters. ABT Sportsline stands for innovative engineering, an extravagant design and some extra dynamism and sportiness. In all developments, roadworthiness and safety top the specs. To give you an example, that is why for the development of front attachment parts ABT Sportsline uses the pedestrian impact protection test. And the market leader's premium products and services are not only available in Kempten but all over the world. Customers can always be sure that they will get tested ABT quality. That's what the name ABT has always guaranteed.

## THE MAGNIFICENT SEVEN

### ABT AND THE GOLF VII GTI

For the Bavarian company, the GTI is simply a love affair. After all, it has been successfully involved in its tuning right from the start when the first generation was launched decades ago. No wonder, then, that the ABT designers and engineers have now been working on the seventh generation of this “über-Golf” as well. The result is a car that leaves nothing to be desired and is a real eye-catcher.

You could hardly make the VW evergreen more dynamic or sporty: A front spoiler and front grille underline the strong charisma of the ABT Golf GTI, the headlight eyebrows its aggressiveness. Mirror caps and side skirts form a sort of attractive connection with the rear, which, in turn, with its rear skirt set and trunk lid attachment radiates unobtrusive dominance. The four-pipe exhaust system is a typical ABT design element. When you look at the ABT Golf GTI's rear, you will certainly know where it has been tuned.

The ABT programme for the VW Golf VII GTI is completed by suspension springs or a coilover set that lower the CoG and even increase the serial version's roadholding capacities. Despite of that the right sport-type wheels are available as well. Think of the CR, DR, ER-C or FR design alloy wheels who underscore the magnificent looks of the Golf VII GTI created by ABT. The wheels are available in 18, 19 and 20 inches.

# WELCOME TO OUR HEADQUARTER IN KEMPTEN.

HOME FOR AUDI'S AND VW'S SINCE 1896.

Find out everything there is to know about "driving pleasure powered by ABT" at our head office in Kempten/Allgäu. Enjoy a fascinating review of over 70 years of racing in the ABT Motorsport Museum, experience the latest ABT cars live and up close, and discover the latest sporty accessories in the ABT Tuning Shop.

But that's not all: with our ABT Configurator, you can put together your very own customised dream car. Simply select the vehicle model, colour and extras – and your personal ABT is complete. It's never been so easy to live out your passion for top-class cars. Come on in and see for yourself. We're looking forward to your visit.

You can dive into the world of ABT with just a single mouse-click: [www.abt-america.com](http://www.abt-america.com). Here you can receive first-hand information about the latest trends and innovations in the fields of technology and accessories.
